

BILLERUDKORSNÄS

HUNT BILLERUDKORSNÄS KOLÅSEN

4-5 SEPTEMBER 2017

This year we will change routines when selecting hunting areas and for appointing stands to each hunter. The reason is to improve possibilities for many meetings with moose since we now can adapt the drive selection due to the situation in the forest the day before the hunt. For example weather changes can make us shift between lowland and highland areas.

Still we will hunt typically 2 drives before lunch and 1-2 drives after lunch. The drives and time schedule will together with the stand distribution be presented when we meet on Sunday 3rd.
