

## HUNTING RULES – BILLERUDKORSNÄS KOLÅSEN

1. You have to wear a red ribbon or a red cap during the hunting.
2. Forbidden shooting directions are with no exception to be respected. Find out carefully the placing of your nearest hunters. Also pay regard to dog drivers and the dogs.
3. **Loading and unloading must be done at your stand.**
4. Stay at your stand until you will be picked up or called in.
5. The hunter is personally responsible for all shooting.
6. Before a shot is allowed to be fired, you have to be sure that you really see a moose and nothing else and that the animal in question is possible to shoot according to good hunting custom and is allowed to be shot according to the regulations.
7. If a cow is accompanied by a calf/calves, the calf/calves should be brought down in the first place.
8. **It is not allowed to leave the stand in order to follow a barking dog or to make a search.** Wait for a contact with the hunting leader or his assistant.
9. Remember that it is good hunting custom to let a moose pass, if you are doubtful. It is not according to good hunting custom to take a “chance shot” as the first shot.
10. It is assumed that a state hunting card and weapon licence are available and that the hunting weapon is well prepared with the ammunition aimed to be used during the hunt.
11. Only moose are allowed to be shot.
